Self contained multi-directional solar powered lighting system

- Easy to attach onto any existing lamp posts or columns
- This is an extremely durable product, which offers a universal adoption to almost any location
- Easily attach this luminary to any size redundant or decommissioned columns
- Energy from the solar panel is stored into a high performance lithium battery
- Distributing the charge to the LED luminary at times between dusk and dawn.
- The microwave sensor is activated by pedestrians within 10m circumference
- Sizes available to fix to 76 or 89mm lamp posts
- 6w
- 8w
- 12w
- 18w
- 24w
